

Clem Macrone Park

Park Master Plan | Construction Documentation | Permitting

Project Summary

LandStudies, Inc. provided consulting services associated with the master plan for Clem Macrone Park and the Radnor Gateway project. The project included an extensive community involvement process to inform the design. The finalized concept addresses drainage issues in the park, while providing opportunities to improve the overall circulation, add needed uses such as increased and improved parking circulation, event spaces and park infrastructure.

Proposed Uses

- Pedestrian Entrance / Gateway
- Active Use Area - playground / splash park / tot lot / picnic / bar-b-que
- Promenade / Nature Trail
- Restrooms / Pavilion
- Sport Fields / Courts
- Memorial Tree Grove
- Event Field / Great Lawn / Amphitheater
- Stormwater Bio-retention Areas
- Stage / Environmental Activity Hub
- Wetland / Natural Area

Before

Infiltration Testing
